## Highway Department Agenda Items

Tuesday, February 24<sup>th</sup>, 2026 County Board Meeting

1. Request approval of seasonal bids for Equipment Rental Rates and Materials as presented.
2. Request approval to advertise for bids for County-Wide Striping project. Intent is to stripe paved County Roads South of TH 99 and CSAH 22.
3. Request approval to purchase 2026 Chevrolet Silverado 2500HD pickup from Saxon Fleet Services (State Contract Holder) for \$49,174.40. This is a 2026 budgeted item.

\*Pickup is scheduled to replace a 2004 ½ ton Ext. Cab Chevrolet

4. Discussion Item: Parcel ID 11.007.0210. Does the County wish to acquire this parcel for Road Right of Way?
5. Updates:

# Cannon River Watershed Joint Powers Organization

## 2024 Annual Report

Partners across the watershed are working together to address priorities within the Cannon River Comprehensive Watershed Management Plan. Members are working on 19 activities related to Resource Concerns, 20 different Landscape Concerns and 11 Socioeconomic Concerns.

Within this Annual Report there are high level summaries of projects, events, studies, monitoring and funding.

## Mission Statement:

Work collaboratively to improve and protect the natural resources within the Cannon River Watershed to ensure prosperity of our urban and agricultural communities.

## Projects & Progress

Cumulative since Plan adoption in 2020:

- 72 agricultural structures including basins and grade stabilization structures
- 1,540 acres of agricultural management practices, primarily cover crops
- Prevented 3,671 tons of sediment (TSS) from reaching streams and lakes each year
- Prevented 478 pounds of phosphorus from reaching streams and lakes each year
- Sealed 8 wells preventing groundwater contamination
- Assisted with design and installation of 6 Native Shoreline Plantings

### Watershed Plan Priority Area Goals

| Protection Lake   | 10-yr Reduction Goal  | Progress           |
|-------------------|-----------------------|--------------------|
| Beaver            | 6 lbs/yr phosphorus   | Increase Efforts ↗ |
| Dudley(and Kelly) | 87 lbs/yr phosphorus  | Increase Efforts ↗ |
| Fish              | 7 lbs/yr phosphorus   | Increase Efforts ↗ |
| Roemhildts        | 84 lbs/yr phosphorus  | Increase Efforts ↗ |
| Impaired Lake     | 10-yr Reduction Goal  | Progress           |
| Cedar             | 340 lbs/yr phosphorus | Increase Efforts ↗ |
| Fox               | 534 lbs/yr phosphorus | Making Progress →  |
| Hunt              | 606 lbs/yr phosphorus | Making Progress →  |
| Impaired Stream   | 10-yr Reduction Goal  | Progress           |
| Lower Vermillion  | 505 tons/yr TSS       | Increase Efforts ↗ |
| Belle Creek       | 2145 tons/yr TSS      | Making Progress →  |
| Little Cannon     | 2713 tons/yr TSS      | Making Progress →  |
| Trout Brook       | 1238 tons/yr TSS      | Making Progress →  |
| Prairie Creek     | 631 tons/yr TSS       | Making Progress →  |
| Rush Creek        | 240 tons/yr TSS       | Increase Efforts ↗ |
| Medford Creek     | 203 tons/yr TSS       | Making Progress →  |

A 1.2 acres grassed waterway in Goodhue County after mulching and seeding

2211 2nd Ave NW, Suite 200  
Faribault, MN 55021  
(507) 332-5408  
[cannonriverwatershedmn.gov](http://cannonriverwatershedmn.gov)

## Plans & Policies

- Six Lake Management Plans in progress which will help prioritize watershed work and in-lake treatments.
- Prioritize Target Measure Application (PTMapp) used for calculating pollutant reductions and project prioritization.
- Supported the Upper Cannon River Flood Study which received funding from Federal Emergency Management Agency.
- Created Native Shoreline Planting Program and materials to support project design.

**CRWJPB members and staff on bi-annual tour which was hosted at Byllesby Dam with a bus tour of conservation practices in Goodhue County**

**Native Shoreline Planting program provides tangible action for lakeshore owners**

## Education & Outreach

- Hosted 6 webinars about the watershed with an average of 25 attendees at each.
- Mailed program information to landowners in priority drainage areas.
- Attended 10 Lake Association meetings to discuss CRWJPO activities and program opportunities.
- Hosted a tour for elected officials of Byllesby Dam and conservation practices in Goodhue County.

## Grants & Funding

The CRWJPO has spent 100% of the first round (FY20-21) of Watershed Based Implementation Funding and 30% of the second round (FY22-23). FY21 allocation was \$1,028,658 and FY23 was \$1,328,658. The funding level will increase in 2025 to \$1,536,990. CRWJPO also received \$30,000 to incentivize Conservation Reserve Program (CRP) enrollment.

An interactive map of the watershed with priority areas and completed projects is available online. Scan the QR code or visit [cannonriverwatershedmn.gov](http://cannonriverwatershedmn.gov)

**Cannon River  
Watershed  
Joint Powers  
Organization**

# Background

- Planning started in 2016 and the plan was approved in June of 2020. The CRWJPO was formed in 2019 as a result of the plan.
- Policy members selected a Joint Powers Board to implement the plan.

# Members

- Rice County and SWCD
- Dakota County and SWCD
- Le Sueur County and SWCD
- Steele County and SWCD
- Waseca County and SWCD
- Goodhue County and SWCD
- Belle Creek Watershed District
- North Cannon WMO

# Le Sueur County

- 9.6 % of the Cannon River Watershed is in Le Sueur County.
- Around 30% of Le Sueur County is a part of the Cannon River Watershed.

# Funding

- The CRWJPO has received 3 rounds of funding from BWSR so far.
  - FY21- \$1,028,658.00
  - FY23- \$1,328,658.00
  - FY25- \$1,536,990.00
- As a Joint Powers Board, the CRWJPO can charge members dues. Annually, they can charge up to \$49,000.00 total in dues. For 2026, they are charging \$36,750.00. Le Sueur County is paying \$2,625.00.
- We have also received other grants for specific activities. These grants have included: CRP incentive funds, RDSP grant, MPCA Algal bloom sampling, and MPCA SWAG sampling.

# Accomplishments

- See Annual Report handout.

# Current Activities

- A large stream restoration project in Goodhue County.
- Lake sampling of lakes that do not have data utilizing dues.
- Lake Management plans are being completed by MPCA and staff will work on implementation of those plans once completed.
- Local well testing and sealing being completed by staff.
- Education and Outreach videos through KTTC.
- Plans on hosting a professional development workshop, hopefully with realtors.
- Funds for Native shoreline plantings along lakes.

# Upper Cannon Flood Study

- FEMA Hazard Mitigation Grant program for the study itself.
- Watershed Based Implementation funds through CRWJPO to do feasibility studies on wetland restoration sites.
- Regional Development Sustainability Partnership grant to develop promotion and outreach material.
- NRCS Watershed Protection and Flood Prevention Operations Program for preliminary Investigation and Feasibility Reports.

# WATERCRAFT INSPECTION PROPOSAL

Protecting Our Lakes  
from Invasive Species

# What Sets Waterfront Restoration LLC Apart

## Simple, proven reasons counties choose us

Across Minnesota, AIS inspection programs often run into the same problems, especially with seasonal workers and tight budgets. When expectations are high and there is little room for mistakes, a few things matter most:

- Keeping good inspectors all season
- Clear leadership in the field
- Strong training
- Accurate reports
- A program that runs steady from start to finish

Waterfront Restoration is built specifically to handle these challenges and keep inspection programs running smoothly all season long.

---

### 1) Expert recruiting advantage

Waterfront Restoration sets itself apart with a proprietary, 10-point inspector staffing system built to win in a tight labor market, without sacrificing quality, professionalism, or coverage. Instead of reacting late or relying on generic hiring, we recruit early, move fast, and tap deeply into local communities. The result is a dependable, well-trained inspector team that shows up prepared, stays engaged, and keeps every launch fully staffed all season long.

### Results that matter

- **Consistent, reliable staffing all season**  
Early recruiting, rapid hiring, rehires, and referrals reduce gaps, no-shows, and mid-season scrambling.
  - **Higher-quality inspectors, not just warm bodies**  
Mission-driven messaging, paid training, and hands-on onboarding attract people who care about professionalism and public service.
  - **Stronger community trust and program continuity**  
Local recruiting, returning inspectors, and active oversight create a familiar, credible presence at boat launches year after year.
- 

### 2) Clear Leadership and One Point of Contact

When inspectors do not know who is in charge, or counties do not know who to call, problems drag on longer than they should.

Waterfront assigns experienced field leaders with clear responsibility. Inspectors know exactly who they report to, and counties know exactly who to contact.

Issues are handled quickly, without finger-pointing or confusion.

#### Result:

- Faster problem-solving
  - Clear communication
  - Less extra work for county staff
  - **Stronger community trust and program continuity**  
Local recruiting, returning inspectors, and active oversight create a familiar, credible presence at boat launches year after year.
-

---

### **3) Navigating MN DNR Training and Reporting Requirements**

Limited class availability, delayed scheduling, and last-minute changes to MN DNR inspector training have been ongoing challenges for AIS programs across the state. These constraints can create early-season staffing gaps and added administrative strain for counties. Waterfront Restoration is well-versed in working within these realities. We proactively plan for training bottlenecks by identifying candidates early, coordinating closely with the DNR well ahead of the season, and building contingency capacity so inspection coverage is not compromised by training delays. We also supply mileage reimbursements if classes are not available nearby and inspectors need to get trained in on short notice.

#### **Result:**

- Reliable inspector coverage despite training constraints
- Minimal SWCD oversight
- Reduced risk of delays, gaps, or coverage

---

### **4) Training That Goes Beyond the Basics**

DNR training is important, but it is only the starting point.

We provide additional training focused on real-world situations inspectors face every day, including:

- How to act professionally at public launches
- How to talk with boaters and calm tense situations
- Following procedures the same way every time
- Knowing when and how to escalate issues

#### **Result:**

- Fewer complaints
- Better interactions with the public
- Inspectors who represent the program well

---

### **5) Consistent Standards and Active Oversight**

In public programs, small problems turn into big ones if they are ignored.

Waterfront runs with clear rules and consistent enforcement. Supervisors actively check in, coach inspectors, and correct issues early, before they spread or repeat.

#### **Result:**

- Less risk
- Fewer surprises
- Consistent enforcement all season

---

### **6) Reliable Reporting You Can Trust**

Good reports save counties time and headaches.

Our reporting is built to be:

- Accurate
- Easy to understand

- Ready for compliance, grants, and planning

County staff do not have to chase corrections or clean up data after the fact.

**Result:**

- Confidence in the numbers
  - Better insight
  - Less staff time spent fixing reports
- 

## **7) A Steady Partner When Budgets Are Tight**

When funding is tight, counties need reliability, not last-minute fixes.

Waterfront focuses on:

- Predictable staffing
- Proactive supervision
- Fewer problems that need correction

**Result:**

- Lower risk
  - Stable program quality
  - Less stress on county staff
- 

## **Bottom Line**

Most AIS inspection programs struggle with:

- Staff turnover
- Unclear supervision
- Inconsistent training
- Extra administrative work

Waterfront Restoration solves these problems by:

- Keeping good inspectors
- Providing clear leadership
- Training beyond the minimum
- Holding consistent standards
- Delivering reliable reporting

As budgets tighten and expectations stay high, we offer a steady, dependable program that runs cleanly from start to finish, with less oversight required.

---

## **What You Can Expect From Us in 2026**

If this is your first season working with us, here's how we're strengthening the program to make things run smoothly from day one.

### **Hiring and Retention**

- Recruiting earlier during the critical March to May window
  - Expanding local recruiting through community groups, clubs, job boards, and job fairs
  - Strengthening interviews to reduce poor-fit hires
  - Prioritizing returning **high-performing** inspectors
-

## **Leadership and Accountability**

- Stronger vetting of all hires
- Clear expectations set early
- Faster correction when standards are not met
- Additional early-season and mid-season check-ins

## **Communication and Reporting**

- Tighter internal checks on case numbers
- Standardized reference tools for inspectors in the field
- Check-for-understanding training to reduce mistakes
- Stronger support from interns
- Task-tracking systems to ensure follow-through

## **Reporting timelines:**

- Weekend reports completed by Monday
- Monthly reports finalized by the first Friday of each month

## **Goal:**

A well-run season with fewer issues to resolve, quicker follow-through, and less administrative lift on your team..

---

## **What Others Are Saying**

“When inspectors from Waterfront were on site, they were far more thorough and friendly than others I have seen. Some inspectors elsewhere clearly did not want to be there.”

“We used to manage this internally. Being able to be hands-off and trust the work is huge. The care you put into this really matters.”

“Their dedication to quality inspections is obvious. Waterfront Restoration is the best fit.”

---

## **About Waterfront Restoration**

Waterfront Restoration has provided fully managed Level 1 and Level 2 AIS inspection and boater education services across Minnesota for 11 years.

Our clients see us not just as a contractor, but as a reliable partner in lake protection, trusted to deliver results with minimal oversight.

We have served the following counties, cities, watershed districts, and lake associations across Minnesota.

.References are available upon request.: Dakota County; Goodhue County; Murray County; Meeker County; Scott County; Hennepin County; Ramsey County; Blue Earth County; Christmas Lake Association; Prior Lake–Spring Lake Watershed District; City of Eden Prairie (Carver County); Minneapolis Park and Recreation Board (MPRB); Lake Minnie Belle Association

---

## Scope of Work (Summary)

### Inspectors

- DNR-trained Level 1 inspectors
- Focused on inspections and boater education
- Professionally equipped
- Electronic surveys completed in the field
- Thorough hiring process including interviews and customer-service screening
- Devices preloaded with procedures, references, and contacts
- Hands-on onboarding provided

### Management and Oversight

- Full program management including hiring, training, scheduling, supervision, and reporting
- Training beyond DNR requirements
- Inspector Coach and inspections intern
- GPS-verified attendance
- Weekly spot checks and ongoing coaching

### Program Support and Accountability

- Multiple project managers available seven days a week
  - Advanced scheduling to reduce coverage gaps
  - Regular case-number accuracy reviews
  - All AIS violations reported within 24 hours with full documentation
- 

## Industry-Leading Reporting and Program Insights

Reporting is where many AIS programs fall short. Counties often receive reports that are hard to read, inconsistent, or require staff time to interpret, clean up, or explain to boards and committees.

Waterfront Restoration's reporting is fundamentally different.

Our end-of-season reports are built to be **clear, complete, and immediately useful**. Counties consistently describe them as a night-and-day improvement compared to reports they have received in the past.

What makes our reporting stand out:

- **Clean, verified data** All inspection data is reviewed for accuracy before reports are finalized. Case numbers, totals, and trends are double-checked so counties are not left correcting errors or reconciling mismatches.
- **Easy-to-read summaries for decision-makers** Reports are designed for commissioners, boards, and committees, not just technical staff. Key takeaways are clearly summarized so leadership can quickly understand what happened during the season without digging through raw data.
- **Lake-specific breakdowns that serve local lake associations** Reports are organized by individual lake, not just program-wide totals. This gives lake associations and local partners clear visibility into activity, pressure levels, trends, and outcomes for their specific lake. Instead of broad county data that feels distant, stakeholders can review information that directly relates to their shoreline, access points, and boating patterns- making the reports far more actionable for local planning, communication, and funding discussions.

- **Clear visuals that actually explain the story** Charts and tables are simple, consistent, and labeled in plain language. They highlight trends, peak times, and risk areas instead of overwhelming the reader with cluttered spreadsheets.
- **Context, not just numbers** We explain what the data means. Reports include written insight that helps counties understand why patterns occurred, where pressure points existed, and what may be worth adjusting in future seasons.
- **Minimal staff involvement required** Counties receive reports that are ready to share and ready to stand behind. No cleanup, no rework, and no guessing.

The result is a report that does more than document activity. It gives counties confidence in their program, clarity for leadership, and a reliable foundation for planning and funding decisions.

**Simply put:** counties move from “checking a box” on reporting to actually using the information to make better decisions.

---

## Schedule

- Attachments from Trevor Rudenick titled “Inspection Hrs for Lakes 2026” and “List of Lakes & Accesses” were referenced for this proposal.
- Final schedule to be determined with input from County.
- Waterfront Restoration will manage the schedule with input from the County and associations, as appropriate.

## Investment

*We provide the best value to protect your lakes.*

**\$30.87 per hour for level 1 inspectors** A few important aspects about our pricing: 1) You are only billed when inspectors are “clocked-in” at the launch site. 2) All overhead costs such as recruiting, company training, DNR training, holiday pay, ongoing management, protocol compliance, technology, software, and reporting are included in the hourly rate. 3) Our pricing is fully transparent. The invoices we provide are simply the multiplication of the hours inspectors worked at the launch multiplied by the hourly rate.

**\$22.43 per hour for DNR training.** DNR training is typically a 7 hour day for each inspector.

| Background checks- Prior to hire, every inspector undergoes a criminal background check to identify felony convictions and sexual offender convictions. Candidates with those convictions are not hired.                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | INCLUDED                     |            |       |    |          |     |                     |     |                       |     |                   |    |                    |    |                  |    |                    |     |                              |
| Uniforms/equipment- ie vests, name tags, safety equipment                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | INCLUDED                     |            |       |    |          |     |                     |     |                       |     |                   |    |                    |    |                  |    |                    |     |                              |
| Tablets for all inspectors instead of phones.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | \$85 per inspector           |            |       |    |          |     |                     |     |                       |     |                   |    |                    |    |                  |    |                    |     |                              |
| Instead of the basic 2-4 page end of summer report summarizing total hours worked etc., we can provide a highly detailed end of year report like this: <a href="http://bit.ly/EOYReportExample">http://bit.ly/EOYReportExample</a>                                                                                                                                                                                                                                                                                                                                                                                                                                         | INCLUDED                     |            |       |    |          |     |                     |     |                       |     |                   |    |                    |    |                  |    |                    |     |                              |
| Instead of the standard monthly hours worked report, we can provide a highly detailed monthly report like this: <a href="http://bit.ly/MonthlyReport-Example">http://bit.ly/MonthlyReport-Example</a>                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | INCLUDED                     |            |       |    |          |     |                     |     |                       |     |                   |    |                    |    |                  |    |                    |     |                              |
| Additional data collection beyond the DNR process- such as specific weed species identified on boats prior to launching- i.e. instead of the standard DNR reporting of “plants removable by hand” Waterfront could document it was Eurasian Milfoil or Curly Leaf Pondweed or Starry Stonewort etc                                                                                                                                                                                                                                                                                                                                                                         | Contact for specific pricing |            |       |    |          |     |                     |     |                       |     |                   |    |                    |    |                  |    |                    |     |                              |

# Proposal for

Le Sueur County

Aquatic Invasive Species Prevention Program

*AIS Boater Education and Inspection Services*

NICK STORM PRESIDENT  
947 11th Ave SE  
Forest Lake, MN 55025  
Nick@WaterGuards.net

## I. Executive Summary

WaterGuards is pleased to submit this proposal to Le Sueur County for watercraft inspection and boater education services in Le Sueur County for the summer of 2026. WaterGuards is an experienced provider and will fulfill the requirements outlined in the request for proposal at an hourly rate of \$29.45\*/hour for Level I inspections. Please see detail below.

## II. Introduction

WaterGuards provides lake access watercraft inspection and boater education services in order to prevent, limit or slow the introduction, establishment and spread of aquatic invasive species into our lakes and other waters. Our mission is to help counties, government units and lake improvement districts fight against invasive species.

## III. Our Package/Scope of Work

Our standard watercraft inspection and education package includes:

- **Watercraft Inspectors.**
  - DNR trained Level I and/or II Inspectors to monitor your lake landings for invasive species.
  - Inspectors educate boaters on the laws and best practices to avoid spreading invasive species, improving our long-term odds of limiting the spread of invasive species.
  - Inspectors are dedicated to protecting Minnesota waters from invasive species.
  - Inspectors are uniformed with an official vest and lanyard designating status as an inspector to provide quick recognition by boaters and offer a visual sign of authority.
  - WaterGuards Level 1 inspectors are at least 16 years of age. Supervisors are at least 18.
- **Professional Management.**
  - WaterGuards hires the watercraft Inspectors. This includes advertising for employees, interviewing, and finding the right people to protect your waters.
  - We hire the most reliable and professional inspectors. We do not discriminate and are proud to hire military veterans, seniors and college students alike. We respect and treat our people well!
  - We work to ensure our inspectors get the best training and support to do the best work.
  - We schedule the inspectors so your access points are covered when you want them covered. We use an online scheduling app/system to maximize employee utilization and minimize any absences from your lake accesses.
  - We use an electronic attendance app with built-in GPS. Employees "clock in and out" via personal cell phone. Employees may not clock in or out if they are not at their designated site.
  - We regularly spot check watercraft Inspectors for quality assurance and immediately address staffing issues if they arise.
  - We assign a roving crew manager to coach inspectors.
  - We assist our inspectors when they must report findings or submit samples of invasive species to the DNR or make reports to law enforcement.

- We keep inspectors up-to-date on recent invasive species infestations and also provide ongoing reminders of best practices all summer long.
- WaterGuards maintains a good working relationship with the Minnesota DNR.
- **Payroll Management.**
  - WaterGuards is an independent contractor. WaterGuards hires the employees, generates the W-2s, checks the I-9s and gathers the W-4s. The inspectors are WaterGuards, LLC employees.
  - WaterGuards includes payroll taxes (FICA, FUTA, worker's compensation and state and federal unemployment) in its hourly rate.
  - WaterGuards maintains its own workers compensation and liability insurance.
  - We pay our employees higher hourly wages to attract and retain the best available talent.

## IV. Inspection Schedule/Lakes

WaterGuards will provide inspection services from mid-May to September 2026.

### **Level I Inspections at the following lakes:**

Total number of hours for the season will be approximately 3000 hours.

*Inspection start date is dependent on DNR training schedule and availability of training sessions for Isanti.*

*Hours of operation will concentrate around the busiest time periods and will vary over the course of the season based on daylight.*

*Inspectors will use personal electronic devices for data collection.*

Table 1. Lakes and Accesses Watercraft Inspection Program WaterGuards will provide inspection services from mid-May to October 2026.

| Lake Name | Number of Hours | Number of Accesses  | Dates/Times of Inspections                                                                   | Additional Comments                                                                                                                                                                                                                                                                 |

| West Jefferson | 250 | 1 | Holidays (include the weekend and/or week the holiday falls on), opening day for fishing, most weekends                                               | Heavy use by boaters and fishermen, inspectors there almost every weekend, on average sheriff's department is there for 75 hours                                                                                                                                                                                                                                      |
| East Jefferson | 225 | 1 | Holidays (include the weekend and/or week the holiday falls on), opening weekend for fishing, most weekends                                           | Heavy use by boaters and fishermen, inspectors there almost every weekend, on average sheriff's department is there for 100 hours                                                                                                                                                                                                                                     |
| Washington     | 525 | 2 | Holidays (include the weekend and/or week the holiday falls on), opening weekend for fishing                                                          | Heavy use by boaters and fishermen, two accesses will need to split time between the two (focus during holidays and opening day of fishing), any remaining hours after holidays and opening weekend for fishing can be filled in as needed, on average sheriff's department is there for 100 hours. West access tends to be more popular based on last few years data |
| Pepin          | 25  | 1 | Holidays (include the weekend and/or week the holiday falls on), opening weekend for fishing, fill in remaining hours during summer and fall weekends | Have not inspected in the past few years, focus on holidays and fishing opener. Any remaining hours after holidays and opening weekend can be filled in as needed                                                                                                                                                                                                     |

|            |    |   |                                                                                                                                                                                                       |                                                                                                                                                                                                                                |
|------------|----|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Greenleaf  | 25 | 1 | Holidays (include the weekend and/or week the holiday falls on), opening weekend for fishing, both opening weekends waterfowl hunting season, fill in remaining hours during summer and fall weekends | Based on last few years this lake is usually quiet, focus on holidays and fishing opener, any remaining hours after holidays and opening weekend can be filled in as needed                                                    |
| Sabre      | 25 | 1 | Holidays (include the weekend and/or week the holiday falls on), opening weekend for fishing, fill in remaining hours during summer and fall weekends                                                 | Based on last few years this lake is usually quiet, focus on holidays and fishing opener. limit number of hours and see how it goes, any remaining hours after holidays and opening weekend can be filled in as needed         |
| Clear      | 50 | 1 | Holidays (include the weekend and/or week the holiday falls on), opening weekend for fishing, fill in remaining hours during summer weekends                                                          | Based on last few years this lake is usually quiet, focus on holidays and fishing opener. limit number of hours and see how it goes, any remaining hours after holidays and opening weekend can be filled in as needed         |
| Fish       | 25 | 1 | Holidays (include the weekend and/or week the holiday falls on), opening weekend for fishing, fill in remaining hours during summer weekends                                                          | Based on last few years this lake is usually quiet, focus on holidays and fishing opener, any remaining hours after holidays and opening weekend can be filled in as needed. Considered high quality lake and want to protect. |
| Roemhildts | 25 | 1 | Holidays (include the weekend and/or week the holiday falls on), opening weekend for fishing, fill in remaining hours during summer weekends                                                          | Based on last few years this lake is usually quiet, focus on holidays and fishing opener, any remaining hours after holidays and opening weekend can be filled in as needed. Considered high quality lake and want to protect. |

- Hours between German, West Jefferson, and East Jefferson are flexible. Really dependent on whether the sheriff's department is at an access more than others. Will not exceed a total of 725 hours of inspections between the three lakes. Heavy fishing lake, preference is inspectors for early morning hours or later afternoon hours.
- Gorman lake has three different accesses. Dam access area will be under construction this year. Split the hours between the other two accesses. We can always adjust hours at each access during the season. Fishing lake, preference is inspectors for early morning hours or later afternoon hours.
- Hours between the two accesses for Lake Washington are flexible. Really dependent on whether the sheriff's department is at an access more than others. Will not exceed a total of 525 hours of inspections between the two accesses.
- Greenleaf, Sabre, Clear, Fish, and Roemhildts tend to be quieter. Focus hours on holidays and opening weekend for fishing. Additionally, Greenleaf lake is used for waterfowl hunting. Would like inspectors at this access during opening weekends for waterfowl hunting.
- Pepin has not been inspected in the last few years but it is likely quite similar to those listed above. Focus hours on holidays and opening weekend for fishing.

## V. Hourly Rate

### Hourly Rate for Inspections

- \$29.45/hour for Level I Inspectors.
- \$20.00/Training hours
- This rate includes employee's hourly pay, all payroll taxes, liability insurance, workers compensation insurance, on-going educational updates, and more.
- Other than limited DNR training, WaterGuards only charges for hours inspectors actually spend at the access unless agreed to by Le Sueur County.

# VI. Our Value and Experience

## Experience

**100% Committed to Watercraft Inspection Services.** We are 100% committed to lake access watercraft inspection and boater education services. This is all we do. We do not provide employees/inspectors for any other occupation or industry. This focus allows us to offer the best watercraft inspection services available. Our staff works closely with the Minnesota DNR and other counties and lake improvement districts in Minnesota and remains current on aquatic invasive species issues and best practices for watercraft inspection. All our management and staff are DNR trained and certified.

**Inspecting Watercraft Since 2011.** From its start in 2011, WaterGuards has focused on protecting Minnesota lakes. We now have 14 seasons of experience. We learn more and do better every year.

**Significant Experience in Le Sueur County.** WaterGuards knows and understands the waters and constituents in Le Sueur County. We successfully served Le Sueur County in 2020, 2021, 2022, 2023 and 2024. Our inspectors have built good rapport with lake associations, area fishing tournament participants, lake service providers and frequent boaters. Our best inspectors would like to return again this year!

**Significant Experience in Other Counties.** The following are examples of past and/or present customers: Cass County (2022-2027), Isanti County and Isanti County LIDs (2015-2026), Waseca (2022-2026), Hennepin County (2020-2025), Sherburne County (2016-2025), Le Sueur County (2020-2025), Stearns County (2020-2028), North Fork Crow River Watershed District (2020-2026), and Todd County (2015-2025).

**Good Reviews.** We consistently receive good reviews from our customers, the DNR, and our employees.

**On-Going Learning.** Our President attends in-season and out-of-season DNR meetings and trainings to continuously improve knowledge of programs and findings throughout the state.

**Professional Management.** WaterGuards is led by a seasoned professional with a master's in business administration, a talent for technology, and a dedicated commitment to aquatic invasive species prevention. Our President and our area managers are always on call throughout the season. Our office never closes!

**Variety of Experience.** We have extensive experience (14+ years) with DNR Level I, Level II and the Ambassador program. We have worked with counties, lake associations, lake improvement districts and on inspection and education programs from 100 hours per season to over 14,000 hours per season. We are proud to boast an average hour fill rate of over 98%!

## Training, Instruction and Work Standards

**High Standards for Recruiting.** WaterGuards uses a proprietary set of interview questions designed over many years to recruit and select the best inspectors possible. We also implement recruiting efforts through online employment websites, social media, colleges and universities, and word of mouth. We hire inspectors with good people skills that engage well with the public. We do not over recruit and over promise. We hire the right number of people and work with them to provide their optimum number of work hours per week. We will hire local people and will re-hire only the best of our previous inspectors. We work with professors around the state to recruit and create internships for graduate and undergraduate students studying lake ecology, biology, aquatic invasive species management, etc.

**DNR Training.** We work with our inspectors and the DNR to coordinate Level 1 training opportunities.

**Employee Resources.** We maintain an Employee Resources page on our website that provides employment policies, DNR resources, and survey instructions to ensure understanding and compliance of our work standards/expectations for our employees. We welcome and encourage feedback from our inspectors on boater responses, activity, scheduling, landing problems, etc.

**On-Going Communications.** We implement continuous email, text and in-person communications with inspectors to provide reminders of best practices and updates to DNR materials, resources, and findings.

**Regular Spot Checks.** We will regularly, randomly, and secretly spot-check our inspectors to monitor compliance with DNR inspection processes and procedures.

## **Best Value and Unique Services**

**GPS Attendance.** We utilize GPS for shift “clock in and out” for the best employee accountability.

**Quality Education.** We believe the best defense against AIS is education! We make sure our inspectors are thoroughly educated on AIS so they may educate and effectively inform citizens and Le Sueur County lake users.

**Flexibility.** We have the flexibility to shuffle inspectors around to different landings with little notice to adapt to weather changes, boater activity, landing problems or closures, fishing tournaments, DNR projects, etc. Our scheduling software makes it easy to account for these changes.

**Clear Focus.** We've been involved in this business, and only this business, since 2011.

## **Thank you!**

We would love the opportunity to work with Le Sueur County again in 2026! Thank you for the opportunity to submit this proposal.

**RESOLUTION REGARDING THE SUPPORT OF A JOB CREATION FUND  
APPLICATION IN CONNECTION WITH RES SPECIALTY PYROTECHNICS, INC**

WHEREAS, the County of Le Sueur, Minnesota (the “County”), desires to assist RES Specialty Pyrotechnics, Inc a service and manufacturing business of pyrotechnics, which is proposing to improve and expand its facility in the Township of Derrynane.

WHEREAS, the County of Le Sueur understands that RES Specialty Pyrotechnics through and with the support of the County, intends to submit to the Minnesota Department of Employment and Economic Development an application for an award and/or rebate from the Job Creation Fund Program; and,

WHEREAS, the County of Le Sueur held a Board of Commissioner’s meeting on February 24<sup>th</sup> 2026, to consider this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF THE COUNTY OF LE SUEUR Minnesota, that, after due consideration, the Commissioners of the County of Le Sueur, Minnesota, hereby adopts the following findings of fact related to the project proposed by RES Specialty Pyrotechnics and its application for an award and/or rebate from the Job Creation Fund Program and express their approval.

The Board hereby finds and adopts the reasons and facts supporting the following findings of fact for the approval of the Job Creation Fund Program application:

1. Finding that the project is in the public interest because it will encourage the growth of commerce and industry, prevent the movement of current or future operations to locations outside Minnesota, result in increased employment in Minnesota, and preserve or enhance the state and local tax base.
  - a) *Improvement and expansion of RES Specialty Pyrotechnics create jobs in Le Sueur County and our support of award and/or rebate from Job Creation Fund allows the company to stay competitive vs. alternative sites of Wisconsin and Alabama as researched.*
2. Finding that the proposed project, in the opinion of the Board, would not be reasonably expected to occur solely through private investment within the reasonably foreseeable future.
  - a) *RES Specialty Pyrotechnics has shared that the Job Creation Fund support has helped to support lowering the overall cost and incentive job growth that without would find the company continuing to explore alternative solutions (out of state, non-full time or streamline of personnel, etc.).*

3. Finding that the proposed project conforms to the general plan for the development or redevelopment of the County as a whole.
  - a) *Expansion conforms to the approved Conditional Use Permit approved by the County for RES Specialty Pyrotechnics in 2024 and the general plan for development on the site and within our County.*
4. Finding that the proposed project will afford maximum opportunity, consistent with the sound needs of the County as a whole, for the redevelopment or development of the project by private enterprise.
  - a) *All proposed improvements, buildings and job growth are consistent with opportunities our county supports in partnership with private enterprise.*

Sworn and Executed Under My Hand this **24th day of February 2026.**
