BACKGROUND/JUSTIFICATION:

The purpose of this agenda item is to Adopt Resolution No. 2022-259; Authorizing a Maintenance Lien on Scott Le Sueur Joint Ditch No. 3 in the Amount of \$290,000, for the Purpose of Establishing a Positive Fund Balance for Maintenance Needs.

Minnesota Statute, Chapter 103E, guides the County as to the process and procedure of administering county ditch improvements and maintenance. All costs affiliated to providing these services must be allocated back to the benefited owners of the properties on the ditch as originally

determined by Ditch Viewers or re-determined, if that process has occurred.

Each year, the SWCD as the contracted Scott County Ditch Inspector, is responsible for inspecting each ditch as requested by the benefited owners, as well as establishing a scheduled inspection every 3-5 years, to determine if: 1) any issues exist on the ditch; and 2) what maintenance will be needed in order to keep the ditch functioning at the level expected. Neither Scott or LeSueur County may use any County funds to pay for any costs affiliated with county drainage ditches. The benefited owners of a county drainage ditch are statutorily responsible for all costs affiliated with the ditch.

In 2021, Scott County approved assessments on County Ditch 3 for maintenance funds which were anticipated to be sufficient for three years. Due to circumstances that have arisen since that time, staff has determined a need for additional funds to make the fund balance positive and for maintenance of what is now the Scott Le Sueur Joint Ditch 3.

In 2021, a repair petition was received on Scott County Ditch 10 (CD 10). That petition triggered a redetermination of benefits on CD 10 and because Scott County Ditch 3 drained into CD 10, a redetermination of benefits was ordered on Scott County Ditch 3 as well. During the redetermination of benefits, the viewers determined benefited owners on Ditch 3 actually exist in both Scott and LeSueur Counties. This caused Scott County Ditch 3 to become Scott LeSueur Joint Ditch 3 (JD 3). The costs associated with the redetermination of benefits require a lien to be assessed in order to bring the balance back to a positive amount. Additionally, there is a need to establish an appropriate fund balance to pay for anticipated costs to establish the required buffer and future maintenance and inspection services.

Staff requests the Joint Drainage Authority approve a maintenance lien in order to complete the anticipated maintenance needed throughout the next three years and to ensure that the ditch has an appropriate fund balance.
