## VARIANCE REQUEST TO USE BOTTLED WATER

All licensed homes day care, child foster care, adult foster care are required to have a safe water supply to be available in the licensed residence. Based on the inability to provide a satisfactory well water result LeSueur County requires a variance to purchase bottled water or to have a filtration system that the water goes through making it safe to drink.

- I am requesting a variance to purchase and use commercially bottled water for the children in my care.
- I am requesting to use a filtration system that my water will go through before using it to drink.
- The variance will be from \_\_\_\_\_ to \_\_\_\_\_ (time of relicensing)
- I understand that my variance will need to be renewed at the time of my relicensing.
- I agree to keep all receipts of purchase on record to show my licensor at the time of my relicensing for bottled water or my filtration system
