Our Erosion Control Prairie Seed Mix for Dry Soils has been specifically designed to provide rapid vegetative cover and long-term soil stabilization. We added 50% more prairie grass, plus plenty of fast-growing prairie flowers. Annual Rye nurse crop is included for rapid green-up. This mix provides quick cover in combination with deep-rooted perennials to hold the soil for decades to come.

*Note:* Always apply the appropriate grade of erosion mat on areas subject to water erosion. Seeded areas that are not subject to erosion will benefit from a cover of clean straw applied at a rate of 1.5 to 2.0 tons per acre. This helps retain soil moisture, increasing germination and plant survival. For well-drained sandy, gravelly and rocky soils.

**Wildflowers:** Smooth Aster, White Aster, Canada Milk Vetch, Partridge Pea, Lanceleaf Coreopsis, Purple Prairie Clover, Pale Purple Coneflower, Showy Sunflower, Roundhead Bushclover, Lupine, Bergamot, Beardtongue, Yellow Coneflower, Black Eyed Susan, Brown Eyed Susan, Stiff Goldenrod, Showy Goldenrod, Ohio Spiderwort, Hoary Vervain

**Grasses:** Big Bluestem, Sideoats Grama, Canada Wild Rye, Switchgrass, Little Bluestem, Indiangrass, Annual Rye Nurse Crop

Contains at least 15 wildflowers and 5 or more grasses, plus Annual Rye.
