The Erosion Control Vendor list is just a starting point for shoreland homeowners, and is not an inclusive list of every vendor that supplies erosion control measures.

Le Sueur County does not endorse vendors over others.

Remember to obtain estimates. Prices and availability will vary for each vendor. Research which erosion control measure(s) will be most effective for your project.

Please contact Le Sueur County Environmental Services **PRIOR** to construction/establishment of your project in order to see local permit requirements.
